

**EUSSEER**

EUROPEAN SOCIETY FOR SHOULDER AND ELBOW REHABILITATION

## **4° EUSSEER Cadaver Course** **14 October 2011**

# **Links between Anatomy – Surgery – Rehabilitation of shoulder**

**Date:** 14 October 2011

**Venue:** Paris

V University. Anatomy Centre – 45 rue de St Pères, 75006

**Faculty:**

Prof. Dott. Olivier Gagey - Paris South University - France

Dott. Giacomo Delle Rose – ICH – Milano Italy

Dott Marco Conti – ICH – Milano Italy – EUSSEER Board

PT Ann Cools – President EUSSEER - Belgium

PT Anju Jaggi – Vice President EUSSEER – UK

## **PROGRAM**

### **PLENARY SESSION : ANATOMY AND BIOMECHANIC**

- 08:15 : Presentation of the course ( Prof O. Gagey)
- 08:30-09:00 : anatomical structure of the shoulder ( PPT presentation - GDR)
- 09:00-10:30 : Anatomical structure of the shoulder -  
FIRST Live dissection ( O Gagey)

#### **coffe break ( 30 min)**

- 11:00 - 11:30 : Biomechanic related to the pathology –  
(teaching lesson –OG)
- 11:30 - 12:00 : Biomechanic related to the surgery decision  
making (PPT- GDR)

#### **lunch (1,5h)**

- 13:30 – 14:00 : group organization

### **PRACTICAL WORKSHOP (3 GROUPS X 3 WORKSHOP 45 MIN EACH)**

#### **Workshop 1: 14:00-14:45 :**

A1-Live dissection : approach for surgery and anatomical lesions ( O Gagey)

B1: Sugical techniques in brief for cuff and instability ( GDR) for the patient dissected in the morning

C1: Clinical approach to the painful shoulder : link between clinical test and anathomical lesions( MC)

**Workshop 2: 14:45-15:30 :**

C2: Approach for surgery and anatomical lesions ( O Gagey)  
A2: Sugical techniques in brief for cuff and instability ( GDR) for the patient dissected in the morning  
B2 : Clinical approach to the painful shoulder : link between clinical test and anathomical lesions( MC)

**Workshop 2: 15:30-16:15 :**

B3: Approach for surgery and anatomical lesions ( O Gagey)  
C3: Sugical techniques in brief for cuff and instability ( GDR) for the patient dissected in the morning  
A3 Clinical approach to the painful shoulder : link between clinical test and anathomical lesions( MC)

**coffe break (30 min)**

**PLENARY SESSION : REHABILITATION**

- 16:45-17:30 : Rehab concepts for cuff pre and post op related to anatomy and surgery ( A.Cools )
- 17:30-18:15 : Rehab concepts for instability pre and post op related to anatomy and surgery ( A Jaggi)
- 18:15 – 19:00 : Discussion with all the board ( on the basis of the question presented by participants on questionnaire ) and Evaluation of the course

**19:00 : Closing of the course**

## **ORGANIZATION:**

**Number of maximum participantes** : maximum 36 ( on the basis of the subscription received) – minimum 30 peoples

**Cost** : 400 euro

**Included:** 2 breakfast and a lunch ticket – lessons and workshops

**Subscription and payment:** at [WWW.EUSSER.ORG](http://WWW.EUSSER.ORG)

**Dead Line** for subscriptions : **8 October 2011**

( for less than 30 peoples at the date of 9 October 2011 the course will not be held and the subscriptions will be refunded – EUSSER reserve the right to cancel the course only by a e mail communication refunding only the subscriptions already payed)
